

Thinned Veil

Deep in the primordial jungle, there are places where the veil between heaven and earth remains lifted.

Army Composition

- No unit may have more than 10 unit strength (including characters)
- No chariots, war machines, or ridden monsters
- All units and characters are 0-3
- No more than one character per unit
- Must include at least one priest or caster.

Deployment Zone

See map. Heavy terrain recommended.

Game Length

The game lasts 6 turns.

Deployment & First Turn

Roll off to see who deploys first. Whoever finishes deploying first, including scouts, gets +1 on the roll to decide who takes the first turn.

Scenario Special Rules

Dense Jungle Terrain

Beneath the jungle canopy, the air was thick and the undergrowth thicker.

- *Fly* and *Swiftstride* cannot be used.
- All models must take a dangerous terrain test for marching unless they have *Move through cover*.
- Models can only draw line of sight a maximum of 12 inches away.

Scenario Special Rules (continued)

Objectives

There are 7 objectives. A model is on the objective by being within 6 inches of it. To claim an objective, you need at least one model on the objective and your opponent must have no models on it.

A claimed objective is held until your opponent claims it.

Holy Infusion

Peering beyond the veil, the righteous can easily commune with the gods.

Before deployment, nominate one of your priests or casters to be the *Conduit*.

During the Command sub-phase, if the *Conduit* is on an objective, they may beseech a diety to invigorate a friendly unit within 6 inches of the *Conduit*. This holy infusion lasts until the start of your next turn. The gods and their blessings:

- Khaine's rage: +1A
- The Old One's stoicism: *Unbreakable*
- Sigmar's shield: 5+ ward save
- Nagash's Vigor: +2M
- The Lady's Blessing: cause *Terror*
- The Beast's strength: +1S, +1 AP in combat

Thinned Veil

Victory!

Starting on turn 2, each player scores one victory point if they control 4 of the 7 objectives at the end of the round.

At the end of the game, the player with the most points remaining on the board (using the normal *Dead and Fled* rules) wins an additional victory point.

Killing your opponent's *Conduit* is worth an additional victory point.

The player with the most victory points wins. The winner gets **3 goal points** and the loser gets **1 goal point**. Both players get **2 goal points** in a draw.
